

COMPANY OVERVIEW

Roberts Health Solutions L.L.C. helps healthcare organizations, federal health programs, and prime contractor teams configure and optimize EHR-enabled workflows in regulated care environments. RHS specializes in practical clinical informatics delivery: translating real-world care requirements into usable system configurations, readiness plans, role-based training, and analytics-ready data capture.

UEI: YLXXDLP9YG13

CAGE: 0UMQ6

SBA CERTIFICATION: WOSB

NAICS:

OUR CORE CAPABILITIES

EHR CONFIGURATION & OPTIMIZATION

- Configure and optimize existing COTS EHR platforms.
- Align system design to clinical workflows, operational needs, and user adoption requirements.
- Support clinical tools and documentation including order sets, workflow validation, vendor update review, and issue resolution.

IMPLEMENTATION & UAT READINESS

- Support implementation planning, staging, testing, production readiness, execution, and maintenance.
- Develop UAT plans, test scripts, defect triage processes, and readiness reporting.
- Translate clinical requirements into informatics and technical specifications.

TRAINING & CHANGE ENABLEMENT

- Develop role-based training materials, curricula, tip sheets, and readiness requirements.
- Support virtual/live enablement for healthcare professionals including physicians, providers, nurses, ancillary providers/users and operational users.
- Improve workflow usability and reduce documentation burden through practical adoption support.

DATA, REPORTING & ANALYTICS ENABLEMENT

- Support analytics-ready data capture, reporting, dashboard development, and data governance.
- Integrate screening, assessment, and monitoring workflows into EHR-supported operations.
- Support eCQM monitoring, compliance reporting, and performance improvement initiatives.

MULTIPLE PLATFORMS SUPPORTED

EPIC, CERNER, MEDITECH, PATIENTKEEPER, & MORE

“Roberts Health Solutions brought professionalism, responsiveness, and deep healthcare operations expertise to a complex EHR modernization effort.”

— Monkton/Compliant Minds

WHAT MAKES US DIFFERENT

- Clinician-led validation anchored in clinical informatics and frontline care realities.
- EHR configuration and customization approach that supports existing or new EHR implementations.
- Aligns system workflows to clinical, operational, usability, and reporting requirements, and reduces unnecessary build risk and rework.
- Direct partnership with a multi-disciplinary clinical team of experts, learning development and operational specialists.

IMPLEMENTATION & UAT READINESS

- Federal health programs and healthcare organizations seeking a clinician-led health IT/EHR prime contractor, subcontractor, or teaming partner.
- Hospitals, community care settings, EAP/behavioral health programs, and informatics teams requiring EHR configuration, customization, optimization, training, and reporting support.
- Programs requiring workflow alignment, UAT readiness, go-live preparation, user adoption, reporting and performance improvement support.

SELECTED RELEVANT EXPERIENCE

COMPLIANT MINDS

LEAD HEALTH SME

WASHINGTON, DC | JULY 2023 - MAY 2026

- Supports EHR and clinical data platform workflows through clarification, best practices, implementation, optimization, evaluation, and testing.
- Creates test scripts, reviews vendor configuration updates, identifies issues, and communicates required changes.
- Supports data governance, reporting, federal standards, patient safety, strategic planning, and performance improvement.

BOOZ ALLEN HAMILTON

NURSING INFORMATICS SME / PROJECT MANAGER

WASHINGTON, DC | SEPT. 2021 - JULY 2023

- Supported requirements gathering, workflow definition, ticket management optimization, and clinical project coordination.
- Developed clinical dashboards to improve leadership visibility into change request status and prioritization.
- Coordinated resources and project activities to support timely closure of clinical initiatives.

CREDENTIALS

KERRY ROBERTS, MSN, RN

- 13+ years clinical informatics experience
- 20+ years clinical nursing experience
- Certified ScrumMaster
- EpicCare Inpatient Procedural Orders Certification
- Epic Inpatient Decision Support Certification
- Epic Infection Control Certification
